

MOM

Client Meet

Jan 29

1. The client wants us to use WordPress
2. Current code and screenshots of the admin view will be shared by client
3. ^{client}Query - Can WordPress be integrated to CAS?
Yes it can be.
4. Current database - MySQL
5. Client requires easy document update with versioning (similar to sports council website)
A thread of all the versions must be maintained
6. No delivery schedule from client's side
7. Requirements doc and delivery schedule to be planned and submitted to the client by next meet.
8. Queries related to table structure and data saving can be asked to the client.
9. All documents on website will be in pdf format.
